Step 4: Partial Airdrops (10 out of 769)

- mbsjq 1/1 collectors:
10 random mbsjq 1/1 Collectors
- The random number generation method will be used to select mbsjq airdrop recipients and Memes allowlist recipients in phase 1.
- Specifically, the selection process is organized as follows:
 - It applies equally to every token in a collection
 - Each piece has an equal chance of being selected.
 - In other words, there is no need to segregate tokens across various addresses to increase your chance of success if you own multiple tokens in a collection
 - The mechanics of the process are publicly auditable and as described in the randomization process
