## Step 4: Partial Airdrops (146 out of 769)

- Drift's 1/1s HODLers: 50 (out of 118 HODLers)
- 6529 Meme Card HODLers: 96 (all Full Set HODLers)
- The random number generation method will be used to select Drift's HODLers airdrop recipients.
- Specifically, the selection process is organized as follows:
  - It applies equally to every token in a collection
  - Each piece has an equal chance of being selected.
  - In other words, there is no need to segregate tokens across various addresses to increase your chance of success if you own multiple tokens in a collection
  - The mechanics of the process are publicly auditable and as described in the randomization process
