MEME CARDS 1-3 DISTRIBUTION

Step 2: Private Allowlist

- The 6529 team compiled a list of around 350 individuals, based on their personal connections in the NFT space

- Each 6529 team member contacted the people on their list and asked if they were interested in buying the Genesis Set (one, two or all three cards) in a private sale

- @DarrenSRS managed the private sales procedure:
    - Contacted the interested buyers
    - Confirmed their interest
    - Provided the wallet address that the funds should be sent to and the amount of ETH to be transferred, based on how many cards they wished to buy
    - Confirmed the txn
    - Transferred the card(s)

MEME CARDS 1-3 DISTRIBUTION

- The remaining cards were distributed via "public" allowlists

- @punk6529 asked his followers in a series tweets to reply if they would like the chance to buy any of the cards in a private sale

- The replies that @punk6529 liked were compiled and @DarrenSRS reached out to each one and followed a similar process to the private allowlist:
  - Contacted the interested buyers
  - Confirmed their interest
  - Provided the wallet address that the funds should be sent to and the amount of ETH to be transferred, based on how many cards they wished to buy
  - Confirmed the txn
  - Transferred the card(s)

- This process was followed until the remaining cards were distributed
